[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO OCT. 8.

EASTERN STATES.

New York News.

NEW YORK, October 6.—The Tammany delegates to the Rochester Convention returned today.

Tweed, who expresses himself satisfied with the result, visited his office for a moment. He ridicules the idea of his projected arrest.

The case of Ingersoll has gone over in Judge Barnard's court till Monday.

The anti-Tammany delegates were admitted at the Rochester Convention; a deputation of the Reform delegation being simply permitted to make a statement of their claims.

Stocks—Irregular and lower, and at closing dull and heavy. Western Union Telegraph, 66¾; Quicksilver, 19¼; Mariposa, 15½; Wells, Fargo, & Co., 52½; Pacific Mail, 52½.

Massachusetts News.

SALEM, October 6.—The American Board of Foreign Missions held a closing meeting to-day. President Hopkins introduced the Missionaries present who were about to leave for their field of labors, with touching remarks.

BOSTON, October 6.—The fire which destroyed the Fitchburg depot, caught from the sparks of the engine and spread with fearful rapidity, the flames being fed by exploding oil casks. Miss Ida B. Andrews, copyist in the freight depot, was surrounded by sudden bursting flames and burned to death. Three buildings were burned. Total loss, $100,000. All the books and papers in the office were destroyed.

Yellow Fever in Florida.

WASHINGTON, October 6.—A letter received from Florida states that the yellow fever is prevalent in an epidemic form. In the town of Tampa there were forty cases and ten deaths.

Dispatches from Chicago.

CHICAGO, October 6.—Mr. Barton Edsall was shot and killed in his house, last night, under circumstances which make it uncertain whether he was shot by a burglar or committed suicide while temporarily insane from the use of hydrate chloral which he had been taking to relieve neuralgia. He got up at one o'clock to get a drink. Two hours after, his wife was startled by hearing two pistol shots, and found him dying in the hall with a bullet hole in his head and a pistol by his side. Another of the barrels was found to be discharged, and the bullet found in the side hall door.

An extra session of the Wisconsin Legislature is talked of to furnish relief to the sufferers by the great conflagration in that State.

Mrs. Grant and children returned to Washington to-day. The President stopped at Baltimore to attend the Fair at the Maryland Institute, and arrived home this evening.

The members of the Cabinet now here are Fish, Boutwell, Belknap and Cresswell.

BY ATLANTIC CABLE.

The English Labor Strikes.

LONDON, October 7.—The strike of the engineers at Newcastle may be considered at an end; only matters of detail remain to be settled. The employers have agreed to the nine-hour system, which is to be carried into effect on and after the 2d of January, 1872. The men promise to work nine and a half hours a day until then.

Dispatch from Rome.

ROME, October 6.—Twenty professors in the University of Rome refused to take the oath required by the Italian Government.

OREGON.

Wm. Abrams, of Eugene City, lost two middle fingers of his left hand in a planing machine last week.

The work of improvement on the Umpqua river is proceeding most satisfactorily. The water is unusually low, and gives excellent opportunity for work.

The proprietors of the Roseburg *Ensign*, which paper was destroyed by fire a short time ago, will resume publication thereof as soon as necessary material can be procured.

Rev. A. Myers has purchased the residence of Mrs. W. H. Willson, on State street, Salem, and will occupy it with his family when he comes to Salem to take charge of his agricultural work.

The granary at the Eugene City Mills, containing 40,000 bushels of wheat, gave way last week, letting the wheat down three feet to the ground. The removal of the wheat will be a heavy and expensive job.

The Albany *Register* has been enlarged and appears in a quarto form. We know not what other one of our Oregon exchanges is so well filled. The *Register* seems to be prosperous, and it certainly deserves prosperity.

The *Farmer* says there will be ample amusements at the Fair grounds and in town, for those who desire them, during the Fair. John and Sally can see enough at the Fair to furnish them with subjects for conversation for a long time to come.

The Salem *Statesman* says the county has sold the present Court House to Messrs. C. W. Lawson and J. H. Hawkins, who will immediately remove it to an adjoining lot. A new Court House will be erected immediately. No other county needs one so much.

It is stated by the Albany *Register* that most of the farmers in its section are fattening an unusual number of hogs. Good idea; the increase in rates of freight by Pacific railroad will tend to keep down the competition of Eastern cured meats and give better prices here.

The Jacksonville *Times* reports the burial of a teamster named Lake, killed on the Crescent City road, as most revoltingly performed by his employer, named McVey. The legs of the dead man were left protruding from the rocks among which McVey cast the corpse and spread a little earth over it.

One day last week Gen. Palmer, Agent at the Siletz Reservation, sent to Sheriff Palmer of Corvallis, the desperado Indian George. He is now safe in the county jail, with his two comrades. This is the fellow that the Deputy Sheriff of Lane county tried so hard to capture, shooting him three times in the attempt. Two of the balls have been extracted, the third he carries in his head.

Jo. Wells, whom the *Democratic Times* of Jacksonville, charges with having murdered James Dennis in cold blood, for which he was bound over in the sum of $3,000, was the same Jo. Wells who figured so unenviably as a Democratic member of the last Legislature. The *Times* says he has absconded, and it censures Justice Gillette with great severity, for releasing him on bail.

From the Roseburg *Plaindealer*: We learn that a gold mine has been discovered some ten or twelve miles from Port Orford, on Flora's creek, in Curry county. It is also about ten miles from the ocean. The prospects so far have indicated remarkable richness, and water is abundant. The lead is one that is known as a black sand lead, and has been found to extend most all the way from Randolph to Ellensburg, a distance of fifty miles. Gold has been discovered from the surface as far down as prospected. If it proves to be as rich as our informant expects, it will certainly be immensely valuable.

A leading member of Parliament on the 2d inst. made a speech at London advocating the passage of an act requiring compulsory education. He declared his belief that the system of secondary education needed a change to meet the wants of the country. In his opinion the tuition in the modern languages, arts and sciences, which were necessary to a higher scholarship, should be made easily obtainable by the poor.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

Confession of a Tammany Thief.

NEW YORK, October 7.—The confession and restitution last night of Keyser, is deemed as important a step as it was unexpected, and as a means of enabling the Committee of Seventy to obtain other proofs, is regarded as the most promising occurrence that has yet happened. His admission is that in seven years' employment by the city, he has received a quarter of a million dollars, for which he has done but little work, but he declared that his signature to many vouchers for exorbitant sums has been forged. In many instances he had been compelled to resign his claims before he could receive pay. This confession will probably secure him an immunity from punishment. Others implicated are expected to take a like course.

The Committee is following out their determination to prosecute the thieves and demand the Government to order the Attorney General to commence proceedings. They will employ counsel to assist in the work. Late County Auditor Watson is supposed to be the person who altered Keyser's vouchers.

The impression is gaining ground that Judge Barnard will discharge the present grand jury. Unless this be done the proceedings against the perpetrators of the frauds will result in nothing. Evidence of the most startling character is accumulating, but the committee of seventy find difficulties in their way. Parties giving evidence suspect that it will cost them their salaries and desire to be provided with other situations. This the committee hesitate to do. The *Herald* offers to advance the city treasury $100,000 towards carrying on the Government until taxes come in.

Great Fire at Chicago.

CHICAGO, Oct. 8—12:30 A. M.—The most terrible conflagration which has ever occurred in this city broke out about an hour and a half ago, having already swept over six entire blocks. It is still raging with almost unabated fury.

LATER—1:30 A. M.—The fire is raging apparently as badly as ever. The block of buildings on the north side of Van Buren street, which, an hour ago it was thought would be saved, is now wrapped in flames. The elevator is safe so far. The fire seems to be spreading south and west. The wind is now directly from the south and blowing hard. The light from the blazing buildings is lighting the streets for half a mile away that one may see to read. The Fire Department is now on the ground—using almost superhuman efforts to stay the flames. The losses already run into millions, and the end is not yet reached.

News from the northern fires state that they are raging worse than ever. A man just arrived at Fort Howard from Peneaukee says that thirty men were burned to death at that place, and also part of the town is consumed. He thinks the rest must be gone by this time.

Death of a Prominent Iowan.

DAVENPORT, October 7.—Ebenezer Cook, Vice President of the R. I. & P. R. R., one of the earliest settlers of the State and long identified with railway and financial interests, died suddenly this morning of congestive chills.

WASHINGTON CITY.

Miscellaneous News.

WASHINGTON, October 7.—The President today received Boutwell, Belknap, Cresswell, Bristow, Spinner and others, some of them on business.

To-day the English Episcopal clergymen in attendance at the Baltimore Convention called to pay their respects to the President. They expressed themselves much gratified with the interview. Bish. Robert S. Hale also called on the President.

By intelligence received from North Carolina, Thursday, we learn that a warrant has been issued for the arrest of U. S. Marshal Carrow and deputy for the illegal arrest and imprisonment of eight citizens, and that the editor of the *Sentinel* was arrested yesterday on the charge of injuring the Marshal, and held for trial.

Naval Intelligence.

WASHINGTON, October 7.—The U. S. steamer *Portsmouth* sailed September 5th from Rio, Janeiro for New York. The *Teconderoga* sailed the same day from Rio for Rio de la Plata. The *Lancaster* was at Rio at the same date. A letter from Admiral Langenan of the south fleet, dated Rio Janeiro, September 9th, reports the last advices from commander Quackenbush, commanding the *Wasp*, dated Montevideo, August 28th, which state that last week an engagement took place between the Reds and whites near Rio Negro, resulting in the defeat of the Government troops with a loss of four guns; two hundred and fifty infantry and half their stock. There has been occasional firing near Colima.

WASHINGTON, October 7.—The President has appointed J. M. Paul and O. N. Mosher, of Colorado, Commissioners to the Centennial Anniversary of Independence to be held at Philadelphia.

The President to-day signed the Postal Treaty between the German Empire and the United States.

Major J. B. Wheeler, of the Engineer Corps, is appointed professor of engineering at West Point Military Academy, vice Professor deceased.

BY ATLANTIC CABLE.

Dispatches from Munich.

MUNICH, Oct. 7.—47 members of the Party of Progress interpellate the government on its attitude on the Church question. As early answer is promised.

Dispatch from London.

The newspapers are discussing the subject of literary piracy. The writers roughly handle American publishers, and an international copy right is universally demanded.

The smack *Pelo* was sunk in Yarmouth and eleven persons drowned. The Turkish cholera panic is subsiding.

Dispatches from Paris.

PARIS, Oct. 7.—Victor Le France, provisional minister of France during the absence of Quertier, has gone to Berlin.

French Affairs.

PARIS, October 7.—The Court of Revision, to which the case of Rossel was appealed, has adjudged him guilty and declared he has incurred the penalty of death.

Republican journals of this city demand of Thiers that he shall take prompt and vigorous action for the suppression of Bonapartist conspiracies.

Swedish Affairs.

STOCKHOLM, October 7.—The King closed the session of the Regstag in person to-day. He addressed the body and expressed great regret at the failure of the Lower Chamber to act on the army re-organization bill, thereby compelling a postponement of the action authorized by this important measure.

MEXICO.

Political Matters.

CITY OF MEXICO, Sept. 10, via Matamoras, Sept. 17.—Juarez was installed President last evening. There is great excitement, and rumors of a change in the cabinet. All is quiet here. The President's message is conciliatory but firm. It recommends improvements, building of railroads, protection to the sea coast and the sanction of treaties with foreign nations. The President has a majority in Congress.

Another revolution began in the State of Nuova Leon. Gen. Pedro Martinez has pronounced against the Juarez Government. The State authorities and several chieftains have joined in the movement. Their combined forces are said to be marching on Comarce and Matamoras, with the view of occupying the Custom House on the frontier. The first step taken by the authorities of Nuova Leon was, throwing into prison all employes of the Federal government. It is expected that the revolution will become general in Matamoras. The frontier is quiet.

Gen. Cortinas has issued a proclamation urging the public to fight for Juarez. Great preparations are making at Matamoras for a fight, and all the cavalry has left for the front. There is great excitement in some parts of Mexico over the quarrel between Captain Vedazal, of *The Brothers*, and the Mexican authorities. The Baez men burned several houses in San Juan.

There is much doubt about the commencement of work on the Lake Tahoe Water Company's works this fall. The death of Geo. H. Ensign, who held considerable stock, requires a delay until the estate can be settled and his interest be disposed of. Then the stockholders are not satisfied with Von Schmidt's contract with the Central Pacific Railroad Company for the tunnel, as they say the amount to be paid by the Railroad Company is too small and the arrangement would virtually put the water company under the control of the Railroad Company. They say they prefer to furnish all the funds for the work, and have no entanglements to contend with. It is understood that Von Schmidt has notified the Railroad Company that he will be compelled in view of the action of the stockholders, to throw up the contract with them. Stockholders have no idea of abandoning the project, but want everything clear before they start in.

Eugene Signoret, a Frenchman, a master mason, aged 48, committed suicide by cutting his throat at the French Laundry on Clay street this morning.

Weather warm.

Unless definite propositions for subsidies from the English colonies or the United States, or both, are soon made it is probable that one of the steam lines between San Francisco and Australia will be handed off. The whole freight and passenger business, so far, would not sustain a single line, and it does not appear to be increasing to any considerable extent.

STOCKTON, October 8.—The Chicory factory, owned by Rosh & Co., twelve miles from here, burned this morning. Loss, $16,000; no insurance.

MEXICO.

Political Matters.

CITY OF MEXICO, Sept. 10, via Matamoras, Sept. 17.—Juarez was installed President last evening. There is great excitement, and rumors of a change in the cabinet. All is quiet here. The President's message is conciliatory but firm. It recommends improvements, building of railroads, protection to the sea coast and the sanction of treaties with foreign nations. The President has a majority in Congress.

Another revolution began in the State of Nuova Leon. Gen. Pedro Martinez has pronounced against the Juarez Government. The State authorities and several chieftains have joined in the movement. Their combined forces are said to be marching on Comarce and Matamoras, with the view of occupying the Custom House on the frontier. The first step taken by the authorities of Nuova Leon was, throwing into prison all employes of the Federal government. It is expected that the revolution will become general in Matamoras. The frontier is quiet.

Gen. Cortinas has issued a proclamation urging the public to fight for Juarez. Great preparations are making at Matamoras for a fight, and all the cavalry has left for the front. There is great excitement in some parts of Mexico over the quarrel between Captain Vedazal, of *The Brothers*, and the Mexican authorities. The Captain and crew of the *Harvest Home* came to the aid of *The Brothers*, and several Mexicans were killed. Both crews left in the *Harvest Home*, abandoning *The Brothers*, which was taken possession of by the American Consul.

The Daily Oregonian.

MONDAY MORNING, OCT. 9, 1871.

Indictment of Mormondom.

Reports that come almost daily from Utah indicate considerable commotion among the "Saints," who are at last getting serious trouble through their devotion to their "peculiar institution." Many suppose that this plague spot is now about to be probed to the bottom, and in several newspapers we have seen articles which assume that the speedy and complete overthrow of the organized "social evil" that has long existed at Salt Lake, is perfectly certain. But this seems premature. They who only consider how this outrage upon human decency and modern civilization has continued to grow and apparently to flourish in the face of vigorous and long continued attempts to put it down, will not be over-sanguine about immediate results from the present movement to suppress it. It is unnecessary to recapitulate the attempts that have been made to lop off the iniquitious excrescence from our social fabric. A war of extermination has been threatened. Bill after bill has been introduced into Congress looking toward the purgation of the Territory of Utah from the foul blot. All the grumbling, however, which have been produced have failed of execution, partly through fear of bloody consequences, and partly through indifference as to the progress of polygamy, and the miseries it entails.

The present movement, it is true, is favorable in one respect; that is, it commences right in giving the Mormons and strikes at them with a fearless vigor. But it proceeds entirely from the officials sent there by the Government, and does not come from the people themselves. True, a large tide of immigration, at variance with Mormonism, seems to have set into the Territory, and from this element a grand jury has been found which has had a "run" on the Mormon leaders. It still remains to be seen, however, whether the trials will result in anything. It will be singular if Brigham Young and his associates, who have heretofore been very fond of rescuing, do not find some way to circumvent the ministers of the law.

The recent charge of Judge McKean to the grand jury was vigorous and direct. "You are summoned," said he, "not to try criminal cases, but to say what criminal cases shall be presented for trial. In the discharge of this duty you will be governed by the same principles of law which govern grand juries in Maine and Montana, in Georgia and Arkansas, and thousands of miles of law everywhere applicable throughout the country. The crimes of murder, arson, larceny, burglary, assault and riot in Utah should not be treated differently for the same crimes committed elsewhere in Christendom. If there is anything peculiar in the situation in Utah, it is in the peculiar conduct of some men here, and not any peculiar principles or policy that are to be enforced here. Utah being in the United States, and the people, like the people of every country, are amenable to the laws of the United States."

Proceedings that have been instituted will be watched with much interest. But it may be that a strong system which has been so firmly established cannot be eradicated in a day.

The Ewing Defalcation.

Washington dispatches of Sept. 26 state that the examination of Paymaster Hodge's accounts has been completed. It appears that the exact amount of his defalcation is $445,506 00, which is a prodigious sum, but much under the amount stated, with habitual exaggeration, by many partisan journals. For instance, Democratic papers set down the defalcations as high as $1,250,000, and charged the loss to "Radical stealing," though the fact is that Hodge is not a "Radical," and was appointed to office and began his peculations long before the present administration came into power. His bearing during his trial indicated sincere and humble sorrow and penitence, and did much to create a sympathy for him. In his confession before the Court he said:

Desirous to make all the reparation in my power, I have turned over to the Government all my remaining private estate, to be applied in reduction of my indebtedness, and my noble wife, following the advice and remonstrances of honorable and counsel, whose pleasure insisted on surrendering her potential rights thereto. It will afford no pleasure, I am sure, to any member of the Court to learn therefrom that neither my wife nor I have any resources now remaining, and that we have three destitute children, wholly unprovided for, with the prospect of an early addition of another child. My counsel, who, at the request of my family, has conferred with me as to the character of my defense, fully concurs with me in the sentiment that it would be inconsistent with my line of defense and unbecoming to present any legal questions as to the powers of the Court in awarding punishment. I feel quite satisfied that neither the Judge Advocate nor this high Court would be willing to transcend the rules of law in any respect.

In an interview with a friend before his trial, he was not attended by counsel as he wanted none) he said:

As for me, I have nothing to ask, nothing to expect. My means and social position among men are gone, and I have sought to ask or desire, save for my wife and children. I have given up all my wealth, even my dear wife has given her honor toward the liquidation of my obligations, and my family are, by my acts, left penniless. My crime has been that I gave way to bad counsel and entered into gold speculations—first, with my own means, until they were gone, and then with Government funds, hoping to regain what I had lost. But these are with me matters of the past.

The sentence has not yet been promulgated.

Oregon and the Census.

The work of compiling the results of the national census and presenting them in a classified form is so heavy that much time must yet elapse before it can be fully completed. A statement has, however, been made of the general agricultural statistics of the country, from which we select those of Oregon. It is to be regretted that these are the reports for 1869. Doubtless they are imperfect, as all such returns must be, but it may be some gratification to the people of Oregon to know how their State figures in the census, as to agricultural products. Here are the statistics:

	Bushels	Value.
Wheat	1,750,000	$1,500,000
Rye	5,200	5,200
Oats	200,000	220,000
Corn	200,000	200,000
Barley	200,000	200,000
Potatoes	500,000	300,000
Hay (tons)	70,000	677,500

The returns show that there were in the State in 1869, 48,600 horses, 1,560 mules and asses, 79,312 milch cows, 103,960 sheep, 113,700 swine, and 140,500 young cattle. Total value of domestic animals, 7,946,255. Cheese was produced the same year to the amount of 15,279 pounds and butter 1,000,159 pounds.

Production in our State has already been prodigiously stimulated since 1869 by the building of railroads and roads to the populations. The continuance of all of these and other causes will multiply the products of agriculture in Oregon tenfold by the time the next decennial census is taken.

The Washington Territory Legislature.

This body, as has already been announced in the OREGONIAN, assembled at Olympia last Monday. It is thought that the business to be transacted will not be of a very important character. Following are the permanent officers of the Council:

President, H. A. Smith; Chief Clerk, Elwood Evans; J. M. Smith, Assistant Clerk; R. L. Doyle, Sergeant at arms; Benj. Pettygrove, Doorkeeper; Miss Annie Tuck, Enrolling Clerk; Rev. J. B. Thompson, Chaplain.

The officers of the House are:

J. J. H. VanBokkelen, Speaker; W. S. Baxter, Chief Clerk; W. Byron Daniels, Assistant Clerk; A. P. Young, Enrolling Clerk; David Wallace, Sergeant at arms; D. Heiser, Doorkeeper; Rev. A. C. Fairchild, Chaplain.

All the officers of both Houses are Republicans.

Earnings of the Central Pacific Railroad.

Earnings of the Central Pacific Railroad of California for August 1871 were $995,065, against $807,815 for August 1870. This shows a very rapid growth of business. The San Francisco *Bulletin* says the business of the road would show even a more rapid growth, "with judiciously modified charges, especially on local and way traffic." It adds that "if a negative policy controls the company, these will be conceded without compelling a resort to legislative authority. It costs less to make voluntary reductions than to pay the lobby and the political agents, subsidize weak journals and buy off or fight off opposition."

In our paper of Friday there occurred an error to which the *Herald* calls our attention. The expenses of the National Government for the fiscal year ending June 30, 1851, were $44,949,949, instead of $37,165,900, as we stated them. The figures last given were the expenses of the Government for the year ending June 30, 1850,—not 1851. We thank the *Herald* for calling our attention to this error, though the error is a slight one.

TO HOUSE BUILDERS & PAINTERS

"AVERILL CHEMICAL PAINTS."

THESE PAINTS ARE SO WELL KNOWN throughout the Atlantic States and their reputation so abundantly established for

Beauty, Permanence and Economy

That we can confidently recommend and guarantee on entire satisfaction to their use.

THEIR COST is less than pure lead, and covers one-fifth more surface, making them the most economical Paints in the market.

THEIR DURABILITY is unquestioned. They dry hard with a smooth and glossy surface and will not chalk, crack or peel off.

THEIR ADAPTABILITY.—They are already mixed and ready for use and require no oil, turpentine or dryers. Are sold of any desired shade, by the gallon only.

Testimonials:

Gen. James B. Negley, M. C., Pittsburg, Pa., writes Nov. 30, '70: I have no hesitation in recommending the "Averill Chemical Paints" to those who regard economy and durability. It soothers our smoky atmosphere better than any Paints I have tested. The colors are rich and variable. Altogether I find them the CHEAPEST AND BEST."

"JACKSONVILLE, FLORIDA CUSTOM HOUSE.—It looks as fresh and glossy as when first applied. I do not believe any LEAD AND OIL CAN EQUAL IT.

"WM. P. DOCKRAY."

I have carefully compared the cost and merits of the Averill Paints with White Lead and Oil and find 90 cents per gallon in favor of the former.

MONDAY MORNING, OCT. 9, 1871.

CITY.

THAT CAT.—An item appeared yesterday in one of the morning papers to the effect that some unregenerated person had feloniously and with malice aforethought entered the stable of *Acker & Miller*, and stole therefrom an honest and amiable wild cat." The stealing of this feline pet created quite a consternation throughout that portion of Second street in the vicinity of the stable. The cat, by his marked ability and taking manners, had endeared himself to the owners and sundry chickens who, placing too much confidence in his catship, fell victims to his inordinate appetite. Outside of his weakness for chickens, the cat was a decided success and bid fair to become both an ornament to his owners as well as the feline species. Immediately upon the disappearance of the pet a search was instituted for the thief. The town was ransacked, but without result. By some chance it was ascertained that an honorable gentleman hailing from Eastern Oregon, who was in the city last week, upon a visit, was seen on the Dalles boat on Saturday last in company with the aforesaid wild cat, and further, that the beast had so disfigured the honorable gentleman that he was hardly recognizable. A warrant for the arrest of the guilty party has, we understand, been issued; but we are under the impression, however, before it is served the offender will be very anxious to deliver up his stolen and, judging from reports, burdensome charge. Vic., you have scarcely forgotten that old and truthful remark that "honesty is the best policy."

PASSENGERS FOR PORTLAND.—The steamship *John L. Stephens* arrived on Saturday from San Francisco for this port, with the following passengers:

James Gamble, M O Loundale and wife, J Legrand and family, A Legrand, W A McCauley, D Corbett, C Kerrins, Mrs W. Miller, J N Baker, J F Courtright and family, H Newhouse, R R Brasher, H H Hobbs and wife, N F Jones, Mrs C Dodd, 2 ch and nurse, J S Allen, Jr, Mrs Hopkins and 4 ch, Bon F Smith, R Nelson, C B Miller Miss A Cranston, Miss Cone, Miss H Burns, T Messerie and family, B Flasher, Mrs M Russell, J H. Rocs, W G Gilbert and wife, Mrs A J Swan, Mrs A. Burkhart, J Smith and wife, Mrs C Quinn and child, R E Smith and family.

THEATRICAL.—The Sacramento *Reporter* of the 7th inst., in speaking of the first appearance of Mrs. Bates in that city, in the play of "East Lynne," says: "The lady is possessed of a fine, graceful figure, handsome features, a melodious voice, and shows, withal, careful study and just appreciation of the character portrayed. The changes from giddy girlhood to settled married life, and then the jealous pangs of womanhood, the remorse of guilt, and the sorrows of the erring betrayed one, were well delineated, and justly did the lady deserve the merited compliment of a call before the curtain at the end of the third act."

SMALL POX.—From a gentleman who arrived from Walla Walla on Saturday, we learn that the cases in relation to small pox is subsiding, and that a number of persons who left the town upon the first appearances of the plague have returned, and the place is again assuming a business-like appearance. When our informant left there were but six cases, and they were confined to but two families. None were regarded as serious, and everything indicated that those affected would recover at an early day.

THE REASON.—The fact that the flag of Multnomah Engine House was at half-mast yesterday excited considerable excitement, and many inquiries were made as to who was dead? We are informed that the cause was the death of Frank J. Silsby, who was killed by being run over by a train of cars in Seneca Falls, New York, a month or two ago. Mr. Silsby was a member of the firm who manufactured the steam fire engines now in use in this department.

ANOTHER FLAY.—Sophie McBride and Nellie Munroe, the keepers of a den on Second street, were arrested on Saturday night, on the complaint of one John Donovan, "a young man from the country," who charges the women with stealing from him the sum of $70. They are to have an examination this morning before Judge Deady.

ANOTHER STEAMBOAT COMPANY.—It is reported that an effort is being made looking forward to the organization of a company having for its object the running of a line of steamboats on the Willamette river. We understand that two boats have already been purchased, one above the Falls and the other is now in use on the lower river.

FOR EUGENE.—Messrs. Holladay, Halsey and others went up yesterday on the Oregon and California R. R. to Eugene City. The road is now completed to that point, and the cars will now commence running regularly between this city and Eugene, the first train leaving this morning.

FROM VICTORIA.—The steamship *George S. Wright* from Victoria and way ports arrived in port at ten o'clock on Saturday night. She brings seventy-one tons of building stone for the Custom House now in course of erection in this city. Her passenger list was unusually small.

CHANGE IN OWNERSHIP.—From the *Bulletin* we learn that Mr. Corbett of this city has purchased the interest of Mr. Lockwood in the Olympia and Montesano stage route. Mr. C. will manage the business at this end of the route.

OATS FOR PORTLAND.—The prices demanded by our farmers sometime since for oats caused J. L. Grand to California for a supply. A shipment of two hundred tons is now on the way, and may be expected to arrive at an early day.

U. S. DISTRICT COURT—DEADY J.—In the case of the United States, vs *Louisa Simpson*, libel for violation of the revenue laws in the importing liquors into Alaska, a decree of forfeiture against both vessel and cargo was issued.

RAILROAD SURVEY.—E. V. Hanhavan and party who have lately been engaged on the Oregon and California Railroad survey, will to-day (Monday) commence to survey the Oregon Central Railroad.

QUERY.—A correspondent wants to know what has become of the "Portland Board of Trade." After a thorough inquiry we are forced to the conclusion that it has "gone where the woodbine twineth."

MEETING OF BOARD OF FIRE DELEGATES.

The regular monthly meeting of the Board of Delegates of the Portland Fire Department was held on Saturday night. President Hallock in the Chair.

Present—Messrs. A. A. Williams, E. D. Backenstos, T. Moffitt, J. H. Lyon, Jacob Mayer, A. G. Walling, E. Wicks, S. L. N. Gilman, W. H. Wetsell and T. Huntington. The minutes of the last meeting were read and approved.

The Committee on Certificates recommended the furnishing of an exempt certificate to H. Steinbeimer. The report was adopted, and the Secretary was requested to comply with the recommendation.

The following reports were presented by the Committee on Judiciary:

To the Portland Board of Fire Delegates:

GENTLEMEN—Your Committee, to whom was referred the appeal of A. J. Gray from the action of Protection Engine Co. No. 4, in electing Eli Morrill to the office of First Assistant Foreman of that Company by acclamation, beg to report as follows:

That in the opinion of this Committee such election was void, being a direct violation of Article 3 of the Constitution of said Company, which provides that the officers of said Company shall be elected by ballot; and although Article 13 of the Constitution provides that a suspension of the rules of any meeting, to terminate with the meeting, may be had with the unanimous consent of the members present, yet, in the opinion of the Committee such suspension of rules cannot be made to apply to this case, as in the same section it provides for amending the Constitution by a two-thirds vote, providing that a month's notice in writing be given. And it does not appear to the satisfaction of the Committee that an unanimous consent to such election being made by acclamation was given by the members present at the meeting. It is the opinion of this Committee that the President of Protection Engine Co. No. 4 erred in declaring the provision in the Constitution above referred to suspended, and in declaring said Eli Morrill elected by acclamation.

A. G. WALLING,
E. D. BACKENSTOS.

To the Board of Delegates of the Portland Fire Department:

GENTLEMEN—Your Committee, to whom was referred the appeal from Protection Engine Company No. 4, concerning the decision of the Company as to the liability of the Chief Engineer to pay dues to the Company of which he is a member, respectfully report that they do not find any law exempting any officer of the Department from the payment of dues to his company, and that in the opinion of this Committee the Chief Engineer is liable to pay dues to the Company of which he is a member, unless exempted therefrom by the Company.

Your Committee would recommend the adoption of the following resolution by the Board, believing that the Chief Engineer and First and Second Assistant Engineers should not belong to any particular Company during their continuance in office:

Resolved, That the Chief Engineer and the First and Second Assistant Engineers of this Department shall not be regarded as active members of any Company during their continuance in office, and shall not be liable to pay any fines, dues, penalties or assessments imposed by any Company—any rules or laws of any of the Companies to the contrary, notwithstanding.

EDWIN D. BACKENSTOS,
J. A. THOMAS,
A. G. WALLING, Chairman,
Committee on Judiciary.

The first portion of the report was adopted, and the second tabled.

The report of the Special Committee on Laws was read and laid on the table for one month.

Communications were received from Engine Companies Nos. 1, 2, 3 and 4, and the Hook and Ladder Company for certificates for new members, and the same were ordered to be furnished.

A communication from Multnomah Engine Co. No. 2, relative to the reinstatement of old members, who had retired but wished to rejoin, was referred to a special committee of three.

The Board then adjourned.

PERSONAL.

The Washington letter of the Eugene *Journal*, dated Sept 22, has this: Mrs. Judge Williams is at the National Hotel, and Dr. Baxter, the attending physician, who is one of the most eminent men in the profession, thinks her health is improving as fast as could be expected.

Miss Anthony has "consented" to deliver a lecture in the circus tent on the Fair Ground, next Thursday, to all who have a half dollar to spend in that way.

The *Albany* (N. Y.) *Express*, of Sept 22d has the following: "Rumor states that in a few days one of Albany's fair and accomplished daughters, Miss Emma Woodruff, will be led to the altar by a young lawyer of Oregon, a graduate of the Albany Law School. The happy twain depart for Oregon immediately after the celebration of the nuptials." That undoubtedly means "our Jo" in other words, T. J. Henderson, Esq., of this city.

BUSINESS NOTICES.

HOTEL DIRECTORY.—L. Samuel, the publisher of the Hotel Room Business Directory, informs us that to-day is the last day he will be in the city, all those who have ordered advertisements in the Directory will please to have their copy ready so as to avoid unnecessary delay. Merchants who have not subscribed for it yet, had better do so to-day, as they will not have another opportunity to advertise in this style for some time to come. Judging by his list of advertisers, the Hotel Room Business Directory is a success.

TO THE LADIES OF PORTLAND AND VICINITY.—Mrs. Geo. H. Clarke, corner First and Washington streets, having lately returned from San Francisco with a select and choice stock of Millinery Goods, would invite her friends and patrons to her fall opening, commencing Monday, Oct. 9th. Come one and all, and see the best selection of styles to be found in the city. Wanted two good Milliners and Trimmers.

The Warning has been Heeded.

Since the exposure of the attempts made by certain unscrupulous local dealers, to palm off their coarse astringents, made from cheap and impure materials, in the place of the great national tonic, Hostetter's Stomach Bitters, public opinion has set strongly against these compilers and their preparations. Their occupation is gone, or soon will be. When the light is let into deception it soon wilts down. Persons who trifle with their own health, by using unknown preparations, with no guarantee to sustain them, when an established specific, proven by twenty years' experience to be exactly what it is claimed to be, is within their reach, are sure to repent their temerity. Many have done so in this instance, but it is hoped that the truth plainly spoken has arrested the evil. In the meantime the demand for the leading protective and restorative medicine of America was never so great as it has been this season. From the fever and ague districts of the west, southwest, and south, it is literally overwhelming, and it may be said of the advices from all parts of the country of the cures it is effecting in dyspepsia, bilious complaints, and chronic constipation, that "their name is legion." Everywhere the sick and feeble seem to have realized the importance of "building fast that which is good," and of avoiding what is spurious and dangerous.

OFFICE OF LAND DEPARTMENT,
OF THE
OREGON & CALIFORNIA R. R. CO.
AND
European and Oregon Land Co.,
PORTLAND, OREGON, August 1, 1871.

THE COMPANY IS NOW PREPARED TO EXTEND the pre-emption privilege of purchasing Railroad Lands in advance of the same being placed in market to all parties desirous of securing them on the following terms:

The applicant filing in this office a notice in the form prescribed, to-wit:

Pre-emption, ——— date, No. ———
To the Land Agent of the European and Oregon Land Company:

SIR: You are hereby notified that I have settled upon and improved (description of land) in the county of ——— State of Oregon, containing ——— acres, and that I claim a pre-emption right to purchase said lands at the Company's valuation in accordance with the following resolution of the Directors of said Company, adopted on the twenty-sixth day of May, A. D. 1871, to the terms of which I hereby fully assent:

"Resolved, That the parties settling upon and improving any of the lands of the European and Oregon Land Company, before the same are opened for market, shall be entitled to the pre-emption privilege of purchase on the same terms as the Company would sell the land for without improvement, and shall be subject to the same conditions of payment, as all other lands belonging to the Company, when brought into market; provided, such settlers shall file in the Land Office of said Company, written application, giving notice of such settlement, and shall accept the privilege upon the condition that when the price of the land shall be fixed, notice thereof shall be sent by the Company's Land Agent, through the Postoffice, or otherwise, as may be convenient, to the residence of the party claiming the pre-emption privilege, and if the land is not purchased by the said party within sixty days from the date of such notice, the Company will be at liberty to sell the land to any other person."

——— (Name of applicant.)
——— (Postoffice address.)

When the application is received, a certificate, signed by the Agent, obligating the Company to the terms, will be sent to the claimant in the following form:

PRE-EMPTION CERTIFICATE, No. ———

This is to certify that ——— of ——— county, State of Oregon, has this day filed in this office a pre-emption claim to (description of premises), and is hereby entitled to the first privilege of purchasing said land at the Company's valuation, which is to be made without reference to improvements when the same shall be placed in market, in accordance with a resolution of the Board of Directors of said Company, adopted May 26, A. D. 1871.

When the price of the above described land is fixed, notice thereof will be sent to the party to whom this Certificate is issued, and if the land is not purchased by the said party at the holder hereof within sixty days from the date of said notice, the Company will be at liberty to sell the land to any other person.

(Signed) ———
Land Agent of the E. & O. Land Co.

The lands will be appraised by a competent, disinterested party, under oath, at their actual present value—no fancy or prospective price on the basis of similar lands in the vicinity, and when appraisement is made they will be sold in quantity not exceeding One hundred and sixty acres to one person, payable in five equal annual instalments, with interest from date of contract, at ten per cent. per annum, principal and interest payable in United States legal Tender Notes. Warranty deeds given after United States Patent issues, upon payment in full.

FINANCE AND COMMERCE.

SATURDAY EVENING, October 7, 1871.

Gold in New York, 114¾.

Currency, here; buying, 96; selling, 98.

The dividends declared by the different incorporated companies in San Francisco for last month aggregated $339,043, against $382,658 for the month of September, 1870.

The coinage of the San Francisco Mint for the first quarter of the current fiscal year aggregates $5,876,000, against $4,520,000 for the like period of last year.

The amount of duties collected in San Francisco since the 1st of January, 1871, aggregates $5,621,885 45.

The telegraph reports steady in New York; dull and heavy, which indicates a more stringent money market there. The stringency in that market is the natural result of the wild speculative mania that raged for some months past owing to the plethora of money, and large sums remitted South and West to move the Cotton, Tobacco and Grain crops.

The gold value of the import entries of Foreign Merchandise, exclusive of Foreign Specie, for the year ending Sept. 30, 1871, is as follows:

Total since January 1st, 1871.....$294,761,418 00
Same date 1870.....220,473,415 00

Increase in 1871.....$68,288,003 00

The currency value of Exports of Domestic Produce and Miscellaneous Goods for the year ending Sept. 23d, 1871, is as follows from New York:

Same date 1870.....121,410,620 00

Increase in 1871.....$56,620,510 00

The Exports from New York of Specie and Bullion for the year ending Sept. 23d, 1871, is as follows:

Same date 1870.....8,587,659 00

Increase in 1871.....$ 8,456,463 00

New York Banks were reducing, at our latest mail advices, their call loans. For the week ending Sept. 23d, their statement was very unsatisfactory, being as follows:

Gold and Gold Notes.....$9,672,100 00

Bank Capital.....$68,000,400 00

The organization of the Oregon Branch of the Home Mutual Fire and Marine Insurance Company of San Francisco was effected last night and list of Oregon Directors published in this morning's paper. This Company justly stands among the leading Fire and Marine Insurance Companies of the East, for the ability with which it is managed, and the business enterprise and worth of its stockholders, among whom are several reputed to be worth a million and upwards. Many of our citizens who have taken stock are among the wealthy and most influential citizens of the State. The Oregon Branch is controlled by the Oregon Directors, who pay all to invest all funds and have the management of everything appertaining to its working here. They have, or will have by the middle of next week, $75,000 on deposit in this city. The working of the Oregon Branch under the agreement is such as, except in name, makes it a local organization. No one will have any familiarity in issuing in this Company after the record the names of the stockholders. The Company has already commenced business.

The Wasp will have so far completed loading as to be able to drop down to Astoria by Wednesday.

The Donnelly was at Rainier to-day, but was going to Astoria on Monday, when she will receive balance of cargo and go to sea.

The Yaka, *Millenberg*, is still at Rainier taking in cargo. She has had some difficulty in obtaining the required length or 60 feet for some of the timber.

The *Hattie C. Bell* is taking in cargo at Rainier, and will finish down the river with canned Salmon.

The steamer *Ajax* is advertised to leave for San Francisco on Monday evening at 7 o'clock.

The steamer *Chas. Taylor* leaves this city evening for Soledad ports.

The steamer *George S. Wright* is advertised to leave for Sitka and intermediate ports on Tuesday evening at 7 o'clock.

There are belonging to the District of Puget Sound 93 vessels aggregating 24,552 tons of registered tonnage.

The Imports at San Francisco for the week ending Sept. 30th was very active. Fourteen vessels arrived with full cargoes of Coal, including small quantities of Iron and Salt; cargoes of Fruit, one of Nitrate of Soda, one of Cedar, one of Sugar, and four from New York and one from Liverpool with Miscellaneous Goods—aggregating 22 vessels.

Exclusive of steamers and other craft belonging to the port of San Francisco, there was in that port Sept. 30th 6,000 tons registered tonnage. The comparison with last year at that time is as follows:

	1870.		1871.	
	Ves.	Tons.	Ves.	Tons.
Engaged	22	20,000	33	28,000
Disengaged	58	35,700	38	37,400
Totals	01	55,700	71	65,400

The effects of this difficulty of vessels obtaining return cargoes is beginning to be felt by your merchants and that in San Francisco in the rapid advance in rates of freight from Liverpool and here. The *Montgomery Castle* brought goods for one of our merchants here to San Francisco for 35s; shortly afterwards they shipped more on the *Bassinore* for this place and had to pay 45s, and the other day received advices of shipments on the way at 45s to San Francisco. Their agents wrote them the rapid advance was owing to such low rates for return charters ruling on this coast.

We have Callao dates to August 26th; from which we learn that the *Andrede* and *Henry Adderly* from San Diego and the *Peru* from Puget Sound had arrived, all with Lumber. There were 29 vessels of about 20,000 tons seeking business. Guano freights were quiet. The rates to London, Liverpool or Bristol were 57s 6d. Lumber from Puget Sound to Callao or other ports in Peru, $27 per M. Oregon Pine was quoted at $26 for rough and $28 for tongued and grooved. The *N. S. Perkins*, belonging to San Francisco, was still on sale. Exchange on London, 60@90 day bills, 45d. Gold was scarce.

Freight from New York by sail to San Francisco is as follows:

For measurement goods, 70@80c per foot; weight, 2½@2¾c per lb; coals, 50 per cent. primage; gunny bags, 35c per box; nails, 62½@65c per keg; lead pipe, $2 75@3 25 per bbl; cement, $1 75 per bbl; plaster, $1 50 per bbl; resin, $2 per bbl; white lead, 12½@13c per lb; window glass, 80 per box; oils, 60c@$1 per gallon; paints, $2 75@3 25 per bbl; coal oil, 37½c per gallon; whiskey, $3@3 50 per gal; Cumberland coal, $9 per ton; $15 per ton.

On 3 September 25th delegates to the National Commercial Convention met in Baltimore pursuant to resolutions passed, at the last meeting held in Cincinnati, Ohio, in October, 1870. Every incorporated city was entitled to a delegate; also, one for each 10,000 inhabitants over the first 10,000. Each Territory was entitled to one delegate and each State to one delegate for each Congressional District. Each incorporated company with a cash capital of $100,000 and every Chamber of Commerce and Board of Trade were entitled to one delegate. Persons of eminence in science and agriculture were invited to attend. In San Francisco papers telegrams dated from Baltimore, Sept. 28th, we extract the following from the proceedings of the Convention (the number of delegates was not given):

Resolutions were adopted in favor of a moderate tariff, in favor of a direct importation by inland cities, uniform rates of tax on manufactured tobacco or an early return to the payment of the income tax; opposing the too rapid payment of the public debt, so long as the interest is paid promptly; in favor of the completion by the Government of the Wisconsin and Fox River improvements, and of the work at the mouth of the Erie Canal by the Government, in accordance with the action of the State of New York. A resolution declaring the special tax imposed on cotton by the acts of Congress of 1860 and 1867 unconstitutional, and asking Congress to refund the tax so paid, was amended so as to include sugar, tea and coffees. A resolution declaring the Pacific Railroads a public benefit was then adopted.

Kirkland, of New York, Chairman of the Committee on Foreign Commerce, submitted a report which was adopted. The report suggests, that it is the duty of the Federal Government, by all proper means, to secure the trade and commerce of Central and South America and Mexico; to this end to unbend the lines of ocean steamers and send them additional commercial agents and consuls, and remove all unnecessary obstructions; to commerce with all foreign countries. The Committee also call attention to the Custom House service, and suggest to Congress to revise the system and correct existing abuses by drafting a new set of resolutions.

The report of the Committee on American shipbuilding, Navigation and Steam Vessels, setting forth the causes of the depressed condition of this interest, and proposing various remedies, was adopted, and the Committee continued.

A resolution in favor of the passage by Congress of a general bankrupt law was adopted.

St. Louis was selected as the place, and the third Monday of November, 1872, as the time for holding the next Convention, and the Convention adjourned.

Merchandise Report.

WHEAT—We have learned of no transactions although more sellers are in the market than previously this season. The scarcity of coin retards, to a great extent, any negotiations being made, for any transactions should take place it would be upon the basis of paying coin for wheat after the arrival of the *John L. Stephens*, due Tuesday, with favorable weather. We continue our quotations in round lots at $2 30@2 35 per cental, sacked, delivered in wheat-house here. These are the highest quotations we have heard of to-day.

FLOUR—The *Gusie Telfair* took a large quantity for Sound ports to-day. We quote market weak at $7 50 a bbl for superfine, $8 50@8 75 for extra, $9 50@10 per bbl.

OATS—Race continues light. We continue our quotations at $2 40@2 52½ ₩ cental, sacked, market firm.

BARLEY—Inactive; quote market $2@2 25 ₩ cental, sacked.

EGGS—Receipts large but market firm at 37½c per dozen.

HAY—There is a good demand for Timothy at $25@28 ₩ ton; wild grass and straw at from $15@18 ₩ ton.

POTATOES—The early part of the week to buy up the crop returned without effecting a purchase, owing to prices being too high for the market. Transactional to large shipments about from California will arrive next week. We quote market $1 15@1 50 ₩ 100lbs.

CLUB—There is a scarcity of Coal, but large supplies are about and due any day. One firm reports on the way 600 tons. Owing to the upward movement of freight holders in California are stiffening prices, especially for outside brands. Prices East under an active demand have advanced from 2@3c per gallon.

DRUGS—New York dates of September advise an advance in refined Borax and Rhenish. The former is now quoted there at 32c for 5 bbl lots, 32½c for single bbl and 32c for cases, all in currency. Rhenish on the spot quotable the same market at 10½c, with little to be had, manufacturers leaning generally sold ahead. Iodine of Potash advanced in England in consequence of a combination to control Iodine, in sympathy with advance in Iodine of prices in San Francisco and here rule higher. Quotable in this market at $7 50. Rhenish not quoted here from 12@13½c. Quinine, $3 25. Trade is very active with prices for all descriptions well sustained.

The Greatest Discovery ever made by Man on this Earth.

RENNICK'S

Wahoo Bitters!

NEVER KNOWN TO FAIL IN CURING

Rheumatism, Neuralgia, Dyspepsia,

and all Affections of the

Stomach, Liver and Kidneys.

IT HAS CURED CASES WHERE THOUSANDS OF dollars had been expended to no purpose but filling the system with mercury, by practical or educated quacks.

Wahoo—(*Euonymus Atropurpuncus*)—a small shrub growing in many parts of the United States. The bark of the root is a bitter tonic, laxative, atriticise, diuretic, and expectorant, and is advantageously used in pulmonary affections, dropsy, constipation, torpidity of the liver, dyspepsia and intermittent fevers.

Read the Certificate of Mr. Thompson, of the Working-man's Boarding House, Front street, Portland:

PORTLAND, Oregon, October, 4th, 1871.

I hereby certify that I am acquainted with the properties of the Wahoo Bitters, put up by S. J. Rennick. It is one of the best remedies for the Stomach and Blood in the world. In fact, it will cure Dyspepsia, Chronic Liver complaint, Chills and Fever, and has the advantage of not being intoxicating.

J. N. CUNNINGHAM, M. D.

This is to certify that I have used the Celebrated Wahoo Bitters, and have known several other men in my house who were vaccinated with the same, and by whom it has effectually cured. It acts on the liver and kidneys, surpassing anything I ever used.

J. R. THOMPSON, of Thompson House.

PORTLAND, Oregon, Sept. 12, 1871.

This is to certify that I have been sick with chills and fever for the last fourteen days, and have tried a great many remedies, and found them all to be humbugs, and was about to give up everything in despair. Mr. Rennicks heard about my case, and gave me a bottle of his Wahoo Bitters and I was relieved, as if by magic from the hand of God.

A. KOLF,

Philadelphia Brewery, Portland, Oregon.

McMINNVILLE, Sept. 27, 1871.

This is to certify that I have used the Celebrated Wahoo Bitters for a good while, having been acquainted with the Wahoo bark for over thirty years, and when aided by other herbs, known only to the proprietor, it surpasses any medicine ever used for Ague, Chills, Fever and all affections of the Liver, Kidneys and Bladder. I have no hesitation in recommending it to the public. I am going on a visit to Illinois and take some with me.

E. J. WRIGHT.

ELLIS STATION, W. P. R. R., Sept. 3d.

I give this of my own free will for the benefit of suffering people: I am fifty-eight years of age, was born in Dilley, Oxfordshire, England, and a minor, suffered from rheumatism for years; have traveled with crutches and cane for the last two years, but I think my God that Wahoo Bitters has made me well man. No humbug about this. Experience has proved that Wahoo Bitters is king of all diseases. I recommend any person any way affected to try them.

OLD ARCHY BURTON.

Corral Hollow, W. P. R. R., Cal.

October 3d.

This is to certify that I have used Rennicks's Wahoo Bitters, and can with confidence recommend it to all suffering from indigestion and all affections of the liver and kidneys.

JOHN STURGIS.

Front street, near sawmill.

PORTLAND, October 1st.

This is to certify that I have been affected for twenty years, and the more doctors' medicines I took, I became worse when the effects of the medicine was over. I had a dreadful pain in my side. The doctors said it was my liver, but, thank God, one bottle of the Wahoo Bitters made a change, and I believe it will make a perfect cure.
